eWiSACWIS Release 2.4 Notes

Access

| 10210 | Add page to create multiple serious incident rprts | Added functionality to allow a worker to create multiple Serious Incident Notification templates. Workers will now use the (Serious Incident Notification page) to insert additional templates. This new paged is launched by selecting the Serious Incident Notification item under the Options dropdown field on the Access Report page. |

Access

| 20023 | Add a link to the CCAP website (law enforcement) on the Access page. | Added the 'Consolidated Court Automation Programs (CCAP)' hyperlink on the Participants Tab on the Access Report page. This link will open the following website: http://wcca.wicourts.gov. |

Access

| 20073 | Add a scroll bar to the Explain field on the Decision tab of the Access Report page. The field is disabled when the supervisor gets the report and the scroll bar is not displayed. | A scroll bar has been aded to the Explain field on the Decision tab of the Access Report page. The field is disabled when the supervisor gets the report and the scroll bar is not displayed |

Access

| 20129 | The County Person ID value entered on the Access Participant page does not carry over to the Person Management page. | Corrected the issue where the County Person ID value entered by the worker on the Access Participant page did not carry over to the Person Management page. |

Access

| 20139 | In the services report, the age | Modified how the Age field is calculated on the Access |

eWiSACWIS Release 2.4 Notes

Access

	calculation does not take into account the months. It only compares the years.	Report page. Regardless of the source (CIA or Online) -> If the Access participant has a DOB, then the Age field value will be calculated based on the date that the report was created. > If the Accesss participant does not have a DOB, then the Age field will display the age entered by the worker (if entered). > If both DOB and the Age field are blank, then the fields will also be blank.

Access

20141	Screen out reports are not showing up under the 'All Reports' expando.	Corrected an issue with the All Reports expando on the desktop. The page now correctly displays Screened-out Access reports under the 'All Reports' expando.

Access

20144	Independent Investigation email is not being generated.	An Independent Investigation email will now be generated when a CPS Report is screened in as "Independent Investigation" with a Provider identified on the report.

Access

20229	FAE when trying to launch the Child Welfare report from the Search Outliner	Fixed the Fatal Application Error when launching the Child Welfare report from Search.

Activity Notes

2429	Narrative Ongoing Services	Added new case note types "Supervisor/Worker Consultation," "Correspondence" and "Email."

eWiSACWIS Release 2.4 Notes

Activity Notes

New Type

Activity Notes

| 10576 | Case Note issues (new) | Fixed several notes issue: provider notes sorting incorrectly, Clicking Clear Fields button for provider notes does not clear the "Finalize Note" checkbox, the outliner is not displaying the updated name if the Worker who made the contact is different than the worker who created the note, User is able to insert a correction note from Provider Search before it is finalized. |

Activity Notes

| 20046 | Case Note issues - Date field on case note page | Note date field is enabled and ready to type when first open the note. |

Activity Notes

| 20178 | The user would like to see the Case Activity Notes in Date Occurred order including the times on the print out. | The functionality has been modified to change the sort criteria of 'Date Occurred' to be both 'Date Occurred/Time Occurred'. The Date Occurred can sort in descending or ascending order. Time Occurred will always sort by chronolgical time order. |

AFCARS

| 20397 | Modify AFCARS Report to include additional Placement Setting mapping | Added the new Shelter Care and Secure Detention placement settings to the Foster Care AFCARS reporting file. |

Assessment

eWiSACWIS Release 2.4 Notes

Assessment

10509	Notice page throws erroneous error	Fixed a problem with the Mandated Reporter notices page, when the user tries to create a new notice and update an exisiting notice in the same session it causes a problem during the save. This will allow the user to create or update multiple notices for an assessment in the same session.

Assessment

20096	Requried field error message is displayed on Assessment even after the Allegation row is deleted.	Corrected an issue where the system displayed a required field error message for a deleted allegation row.

Assessment

20151	Prefiiled summary of referral is blanked out after save on Child Welfare Report	Corrected an issue on the Child Welfare Report where the Summary of Referral field was not prefilling when opening the template for a second time.

Assessment

20197	The allegation tab on the Assessment page displays the ID_CPS field rather than the ID_ACCESS_REPORT field in the Report ID column.	Fixed the Report ID field on the allegation tab of the Assessment page. The Report ID now displays the Access Report ID.

Assessment

20243	Modify assessment pages so the disposition field only exists on the Assessment page instead of	Removed the disposition fields from the Initial Assessment - Primary Caregiver, Initial Assessment - Secondary, and Initial Assessment - Narrative pages and

eWiSACWIS Release 2.4 Notes

Assessment

	every type of Assessment and the Assessment page as well.	modified the disposition field on the base Assessment page to look and function as it currently does on the Initial Assessment - Primary Caregiver, Initial Assessment - Secondary, and Initial Assessment - Narrative pages.

Automated Messaging

10396	Dup Provider Aut Msgs to Adoption Staff	Enhanced the duplicate provider email processing to also send messages to Adoption staff when ending either a Subsidized Guardianship or an AAFC Adoptive Home type of In-Home service.

Automated Messaging

10526	Automated email for screened in Access Reports	Added a new automated email which is sent to the Primary Assigned worker of a provider where an Access report contains the Parent 1 or Parent 2 as a participant (not necessarily the Reference person). The email is not generated if the provider is only identified as the 'reporter'.

Case Visual Metaphor

9765	Sorting of payments on outliner	The Provider listings for Overpayment Adjustments, Payment Requests, and Checks the sorting has been updated to be in the following order: county, payment date begin, child name, date requested.

Case Visual Metaphor

10543	Desktop Display for Payments	Reorganized the display and sorting for payments under

eWiSACWIS Release 2.4 Notes

Case Visual Metaphor

and checks

the case.
The payments not associated to a check will continue to have a green moneybag icon. These will be sorted by county, payment date, child name, and date request. Payments associated to a check will have a yellow moneybag (instead of a check) icon and will have two hyperlinks: the payment link will take users to the Payment Request page for that payment and the dynamic check status link will take users to the appropriate page based on the check status.

CAU Adoption Referral

| 10519 | Template not Prefilling | Templates on Adoption Referral prefill Court Number entered on the Legal Action page. |

CAU Adoption Referral

| 20075 | Adoption Assessment Form can be created/editied from Search | The Adoption Assessment Form which is launched from the Adoption Referral page, can no longer be created/editied from Search. |

CIA

| 20118 | The CIA code was modified with the Access changes so that the ACCESS_REPORT.id_prsn_spvr is populated based on the FI_Mngmt logic. This needs to be changed to be based on the Grant Supervisor Decision | CIA Access Reports now prefill the supervisor fields based on the new 'Grant Supervisor Decision' security profile. If the worker identified on the CIA file has the 'Grant Supervisor Decision' security resource, then they will prefill as the supervisor. If the worker does not have the 'Grant Supervisor Decision' security resource, then the worker's supervisor will be pulled into the supervisor fields. |

eWiSACWIS Release 2.4 Notes

Close Case

10356	case merge batch	The date end for the assignment will include the date and time stamp in the database. This will allow the date end to be unique and later than the date begin withing the tables.

CPS Reports

6377	Mandated Reporter Letter	Added a popup message which prompts the user to launch the Mandated Reporter Letter prior to saving the Access Report.

CPS Reports

10360	updated reporter's address doesn't prefill	Corrected an issue with the address that is filled in the Reporter Narrative.

CPS Reports

10470	add reference value	Added a child abuse type of Manufacturing Methamphetamine to the field "A/N Code" on the Allegation tab of the Access Report page.

CPS Reports

10589	Household Member does not get updated correctly	The Household Member field on the Maintain Case page will be updated based on the role selected on the Access Report page. 1. If the Access Participant role is 'Household Member', then the Household Member field will be set to 'Y'. 2. If the Access Participant role is 'Non-Household Member', then the Household Member field will be set to 'N'. 3. If the Access Participant does not have a role of either

eWiSACWIS Release 2.4 Notes

CPS Reports

'Household Member' or 'Non-Household Member', then the Household Member field will be set to 'U'.

CPS Reports

20020	The Allegation Details group box on the Allegation tab of the CPS Report displays incorrectly.	Updated the CPS report type option from 'Secondary Caregiver' to 'Secondary/Non-Caregiver'.

Document Plans

9385	Add message to Out of Home Safety Plan	A message is added to the Out of Home Safety Plan to inform the worker to launch the template.

Document Plans

9566	Adoption Case Plan Template	Adoption Case Plan Template was reformatted for the new release. The form number no longer contains letter "T".

Document Plans

10076	Perm Plan template - Date of Removal field	The Permanency Plan template pre-fills with the correct Date of Removal after TPR has occurred.

Document Plans

10487	Template Copy Feature Issue	Modified the Permanency Plan template to correctly copyover and to prefill blank spaces if the child is not in a current placement.

eWiSACWIS Release 2.4 Notes

Document Plans

| 10540 | Terminating Plans | Make 'Not Approve' an option when plan termination is initiated. |

Document Plans

| 20092 | Protective Plan (Sm07b_protective_plan) CFS-2179 (statewide version) | Protective Plan CFS-2179 template was modified to meet template standards and policy changes. There is now one statewide version of this template. |

Eligibility

| 6459 | Eligibility- Fatal Apps | Modified the save processing of several fields on the Title IV-E Eligibility Basic tab. The removal from home address zip code will no longer cause errors if too many digits are entered. Additionally, the Other relative name, which prefills to question 7b, will be trimmed to the maximum field length of 25 characters. |

Eligibility

| 9951 | Adoption Eligibility template | Added functionality to allow a worker to create multiple Adoption Eligibility CFS-75 templates. Workers will now be able to use a new page (Adoption Eligibility Notification page) to insert additional templates. |

Eligibility

| 10226 | FAE on Medicaid Certification page | An FAE will no longer display on the Medicaid Certification page. |

eWiSACWIS Release 2.4 Notes

Eligibility

10368	Eligibility void - send message to Maximus worker	Added processing which will send an automated message to all eligibilty workers with an open assignment to a case, if the placements for a child are ended in error causing the Title IV-E Eligibility record to be automatically voided. If the IV-E record is not voided, then no message is sent.

Eligibility

10394	CFS-75 template	Enhanced the CFS-75 template to prefill provider information from the most recent Adoption Assistance Agreement. The template previously prefilled the provider information based on the first Adoption Assistance Agreement created.

Eligibility

10578	Eligibility edit message incorrect	Fixed the Title IV-E eligibility edit message which displays for redetermination status updates. The message will no longer display "null" as part of the message.

Eligibility

20348	Medicaid Certification not knocking down escalated ticklers.	Fixed an issue where escalated Medicaid Certification ticklers were not getting knocked down when a Medicaid certification is completed. As part of this incident all escalated ticklers which should have been removed have been deleted.

eWiSACWIS Release 2.4 Notes

Eligibility

20456	Referral for eligibility sign off is sending email and assignment to wrong person.	Fixed an issue which was causing the automated email and case assignment to be sent to the wrong worker when a Title IV-E eligibilty record was referred for sign-off.

eWReports

10202	Kinship Care Report:	Additional information has been added to display on the SM10a31 Kinship Care detail report and summary.

eWReports

10275	F_CASE_ASSIGN needs update	Reports displayed on eWreports should now display the latest assigned primary worker to case, if applicable.

eWReports

10419	Need to update how Dashboard #s generated	The following Outcome Measurement Reports will now run independently each quarterly QPEP cycle: SM06a03 - Recurrence of Maltreatment SM10a22 - Time to Reunification SM10a23 - Re-Entry into OHC SM10a24 - Maltreatment in OHC SM10a25 - Placement Stability

eWReports

20028	SM10a31 Kinship Care Report not pulling in historical kinship placements	When running the SM10a31 Kinship Care report historically, the number of placements will no longer drop from the current years' runs.

eWiSACWIS Release 2.4 Notes

eWReports

| 20377 | Option to right click and copy the graphs and data tables in the Dashboard is disabled. | The graphs of the Outcome Measurement Reports Dashboard can now be saved by accessing the graph only page, right clicking on the graph, and saving as a file to be inserted into a document. |

Forms

| 10296 | service request and referral form | The Service Request and Referral form retrieves and sorts placement information by most recent open placement. |

Forms

| 10445 | Approval button becomes enabled after changing template | Approval button becomes enabled after changing template. |

Foster Care/Out of Home Placements

| 10118 | Rate setting type that doesn't affect tickler | Added a new field in the header of the Foster Care Rate Setting page which will give workers the choice of whether or not to knock down the rate setting tickler and create a new one, or keep the existing tickler as is. This field will automatically be disabled and a value defaulted based on certain rate setting types. |

Foster Care/Out of Home Placements

| 10278 | FCRS copied over by TPR batch | Fixed an issue which would copy over the original creation date of a rate setting record when a child was TPR'd. The batch will not set the timestamp with the batch run date/time. |

eWiSACWIS Release 2.4 Notes

Foster Care/Out of Home Placements

| 10441 | Add Child ID and Case ID to the placement pages | The Case Name and ID number along with the Child's Name and ID number will now appear on the Out of Home Placement Page and the In Home Services Page. |

Foster Care/Out of Home Placements

| 10442 | Add edit to FCRS page to enforce spending limit | Added logic to the Foster Care Rate Setting page to enforce the spending limit in effect. This edit will prevent rate settings from being created which exceed the established spending limit for maintenance costs. Any amount a county wishes to pay above this amount should be recorded in the Administrative Fee field on the out of home placement page. |

Foster Care/Out of Home Placements

| 10466 | Make rate setting basic rate based on efctv date | Enhanced the logic on the Foster Care Rate Setting page to retrieve the appropriate Basic rate based on the effective date entered by the user. This will allow workers to back-date rate settings into prior years, even if a Uniform Foster Care Rate change has occurred. |

Foster Care/Out of Home Placements

| 10511 | Adoption Payee access for BMCW adoption wrks | The BMCW adoption workers have an ability to document the adoption payee when documenting InHome services with the service category and type of "AAFC Adoptive Home". |

Foster Care/Out of Home Placements

| 10513 | Adoption Payee updating restrictions | Only the workers associated with security profiles containing the checked Adoption Payee checkbox will |

eWiSACWIS Release 2.4 Notes

Foster Care/Out of Home Placements

have an ability to update the Adoption Payee Name(s) once the In Home Service has been set up and approved by the State/BMCW adoption worker.

Foster Care/Out of Home Placements

20093	Kinship Care Denial of Payment and Appeal Rights sm10a_kinship_care_denial_p&a_sw.rtfCFS-2202	Kinship Care Denial of Payment and Appeal Rights CFS-2202 template was modified to meet template standards.

Foster Care/Out of Home Placements

20094	Kinship Care Notice of Assignment for Child Support template modifications	Kinship Care Notice of Assignment for Child Support was modified to meet template standards.

Foster Care/Out of Home Placements

20114	Rate setting saving null values to exceptional and/or contracted amount fields.	Fixed a problem which was saving null values to the rate setting record in the exceptional and/or contracted amount fields. With these values null the payment batch calc ongoing could crash.

Foster Care/Out of Home Placements

20251	Rate setting template not being updated when using copyover.	Corrected the rate setting copyover functionality so the Foster Care Rate Setting template reflects the newest information rather than the data from the prior rate setting.

eWiSACWIS Release 2.4 Notes

Foster Care/Out of Home Placements

20254	Modify placement settings on the Placement Correction page to be similar to CR# 10088.	Update the Placement Correction page to display the appropriate placement settings for the new Shelter Care and Secure Detention services introduced to the system earlier this year.

Foster Care/Out of Home Placements

20567	OHP page displaying wrong rate from rate settings.	Fixed an issue with the Out of Home Placement page displaying the wrong rates for a closed placement and rate setting.

Gather/Monitor/Request Reimbursement

10309	Payment Based Days of Care	Fixed the Payment Based Days of Care report (fm04a10) so Group Home counts for Subsidized Guardianship children are reset and not duplicated.

Home Inquiry

10532	Deleting home Inquiry participants	Home Inquiry has been enhanced to allow a worker to delete participants with the role of Parent 1 or Parent 2 from a pending Home Inquiry record.

Home Provider

9797	OHC Support Plan	A copy-over functionality for the Support Plan is added so that the user can copy over from previous Evaluation Revision.

Home Provider

10333	County Provider ID	Provider worker from a designated county can now document and save County Provider ID information (on

eWiSACWIS Release 2.4 Notes

Home Provider

			both foster and treatment home providers) for various counties.

Home Provider

10414	Adding unlicensed services	When insert new service, the total bed capacity field is only enabled when the service type is for out of home services.

Home Provider

10438	Should not be able to create from license	The Adoptive Home Assessment Result, Adoptive Home Study Approval Letter and Adpt Home Study Aprvl Ltr for Specific Child templates have been removed the Options drop-down menu on the License page. The templates can be created from the License drop-down menu on the Create Provider Work page.

Home Provider

10457	do not copy service types when creating new licens	When creating a new license the service types listed on the Edit Licensed Services page will default to zero.

Home Provider

10506	delete link on County Provider ID field	Only authorized users will have the delete hyperlink associated with the specific county and provider ID row in the County Provider ID group box.

ICPC

10538	ICPC Status Request page	The processing on the ICPC Status Request page was modified to redisplay rule violations in 30 days after the

eWiSACWIS Release 2.4 Notes

ICPC

rule was deleted on the ICPC Status page if there are no changes to the data were made on the the corresponding ICPC page.

Issue/Reconcile Checks

| 10212 | Payment Download page | Added a new search field to the Payment Download Page: Check ID. This field is specifically for use by BMCW and State financial staff to search for and reconcile EFT payments. |

Issue/Reconcile Checks

| 10287 | FM0202 - Pre-Audit Report | Modified the pre-audit report to properly display the admin amount and total payment amounts, and reversed the order of the Admin and Adjust amount fields. |

Issue/Reconcile Checks

| 10515 | Update Pre-Audit, Prepay Verif., and Pending Check | Created new Kinship sub-reports for the Pending Checks (FM0217), Pre-Audit (FM0218), and Pre-Payment Verification (FM0107)reports. These reports will display only Kinshp placement payments. Users desiring to receive these reports for each county financial cycle should request the report be added by the security delegate. |

Issue/Reconcile Checks

| 10541 | Manual Checks Page | Modified the Manual Checks page to refresh the outstanding payments after a user enters a check date and number and saves. This will allow users to enter and record several manual check records in sequence |

eWiSACWIS Release 2.4 Notes

Issue/Reconcile Checks

without having to leave and reopen the page.

Issue/Reconcile Checks

20025	Modifications to the EFT extract file to accommodate adoption payee name changes.	Modified the EFT bank extract file to accomodate the operational requirements of the adoption payee change order. The file now includes the unique WiSACWIS database check ID.

Issue/Reconcile Checks

20110	FM02 reports needing fixes for admin amounts (FM0207 - State Foster Care Pre-Audit)	Modified the pre-audit report to properly display the admin amount and total payment amounts, and reversed the order of the Admin and Adjust amount fields.

Issue/Reconcile Checks

20111	FM02 reports needing fixes for admin amounts (FM0209w) (Adoption Assistance pre-audit)	Modified the pre-audit report to properly display the admin amount and total payment amounts, and reversed the order of the Admin and Adjust amount fields.

Issue/Reconcile Checks

20112	FM02 reports needing fixes for admin amounts (FM0213) (Subsidized Guardianship)	Modified the pre-audit report to properly display the admin amount and total payment amounts, and reversed the order of the Admin and Adjust amount fields.

Issue/Reconcile Checks

20113	FM02 reports needing fixes for admin amounts (FM0215) (EFT)	Modified the pre-audit report to properly display the admin amount and total payment amounts, and reversed the order of the Admin and Adjust amount fields.

eWiSACWIS Release 2.4 Notes

Issue/Reconcile Checks

| 20242 | Prevent multiple batch updates processing the check printed files | Modified the processing logic of the Check Printed batch to prevent re-updating checks if a county sends a check printed file with historical or duplicated information. This will help prevent overreporting costs of care to the KIDS system. |

Legal Consult

| 4305 | Update Case Part Legal Stat based on Hrng date | The Legal field on the Participants tab of the Maintain Case page has been modified. The Legal field displays the most recent Hearing Date, not the most recently created legal status. |

Legal Consult

| 8469 | Approval Travel Letter | Approval Travel Letter template has been modified for use by county and adoption offices. |

Legal Consult

| 10294 | Court report spell check freezing & other issues | Spellcheck now processes all the narrative fields of the Court Report correctly. |

Legal Consult

| 20082 | Request for Petition of Child Needing Protection or Services- Winnebago version enhancements (CFS-2126-70W) | The following changes were implemented on the Request for Petition of Child Needing Protection or Services (sm09_ petition_req_determ_stat_70) CFS-2126-70W: 1.Removed the "W" from the form number; 2.Added 2 checkboxes- one each in the mother and father sections that are labeled "Deceased" and follow the name prompt in the name field for the mother/father. If there is a date of Death entered and |

eWiSACWIS Release 2.4 Notes

Legal Consult

saved on the mother and/or father's person management record then the appropriate "Deceased" checkbox will be checked and the name of the parent will still prefill on the template but no other information about the parent will prefill as it would no longer be applicable.
3.The revision date changed to be 6/2006.

Legal Consult

20090	Temporary Guardianship Worksheet CFS-2075	Temporary Guardianship Worksheet CFS-2075 template was formatted to meet template standards.

Legal Consult

20091	Objection Notice (sm10a_objection_notice_sw) CFS-2129	Objection Notice (sm10a_objection_notice_sw), CFS-2129 was modified and no longer contains "N" in the form number.

Licensing Home Providers

10508	license date	Fixed the issue that the license has a later start date than the end date when new physical address was created twice.

Licensing Home Providers

10529	TFH license is half-expired	Corrected an issue where an extra blank row was being inserted on the Additional Licensing Action page for treatment foster home licenses.

eWiSACWIS Release 2.4 Notes

Maintain Case

| 5442 | Maintain Case
Case Description | On the Maintain Case window, when Pre-Adoptive is selected as the case type, a new reference value called 'Child Needing Sustaining Care' will now be available within the list of Description types. |

Maintain Case

| 20156 | GIS Address Reference data incomplete causing issues on Case Maintainance address update. | Changed exception handling processing to write a row into the Exception table in the event that there is not match for a valid address in the GIS_ADDRESS_REF table. |

Maintain Case

| 20562 | TPR Copy batch is not copying the approval and approval history information in the correct order resulting in editable approved work. | TPR Copy batch copies the approval and approval history information in the correct order. |

Maintain Services

| 10320 | Mainain Service Type Page | Changing values from the "Statewide Reporting Group" on the Mainatin Service Type and Rate window will no longer result in an error. |

Maintain Services

| 10324 | Maintain Service Types > View | When accessing the Maintain Service Type and Rate window in a view mode (Maintain > Service Types > View), all fields are now made disabled. |

eWiSACWIS Release 2.4 Notes

Maintain Services

20293	Maintain Service Types page, Save button doesn't enable properly.	If any fields on the Maintain Service Type page are changed, the Save button will be enabled.

Manage Worker

10261	Worker Management	When searching a worker on Maintain Case page, the system will no longer throw a validation error if there are no current open assignments to the worker.

Overpayment Adjustments

10339	Overpayment Adjustment Expando on Provider	Modified the Payment Request page to allow the Overpayment Status expando to be opened and viewed via the Search page.

Person Management

10367	Some SSN fields don't accept leading zeroes.	Modified several online pages, including the Title IV-E Eligibility Initial Determination page to allow entry of leading zeroes for social security numbers. The page will now display and save SSNs with leading zeroes correctly. All previously incorrect SSNs have been corrected for leading zeroes.

Person Management

10376	AFCARS errors- 1 adoptive parent	A new field was added to the Additional Tab of the Person Management page. The field will be used to document who has adopted the child as far as "Single Male", "Single Female" or "Married Couple". The field is disabled as long as the Child was Previously Adopted field is answered "NO"; however, if it is answered "YES"

eWiSACWIS Release 2.4 Notes

Person Management

then the new field is enabled and required. The field is editable at any time as a child may initially be adopted by a single female and then later be adopted by her new husband through a step-parent adoption which would change this value from a "Single Female" to a "Married Couple".

Changes were also made to AFCARS reporting to determine when Adoption AFCARS errors should be thrown.

The Permanency Plan page was also enhanced to prefill the "Father Is" status from the child's person management record as appropriate.

Private Provider

| 10351 | Changing Private Provider Name | Workers are now able to switch the provider type on a private provider until final approval. |

Private Provider

| 20169 | When creating a Private Provider, the license type switches to Not licensed and the license agency field switches to "Duplicate" when the CPA is added after the provider has been saved. | When creating a Private Provider, the license type no longer switches to "Not licensed" and the license agency field no longer switches to "Duplicate" after CPA is searched and documented after the provider has been saved |

eWiSACWIS Release 2.4 Notes

Private Provider

20171	Private Provider type switches to Other when insert button is clicked in the County Provider ID group box	When creating a Private Provider, the type field will no longer switch to Other when the Insert button is clicked in the County Provider ID group box.

Process Payments Requests

10402	pre-payment report duplicate payments	The prepayment report will no longer duplicate payments when the report logic pulls in more than one assigned primary worker (closed or open assignment) per payment.

Process Payments Requests

20416	Payment trigger needs modification to prevent trigger insert failures	Modified the database trigger which runs when a payment record is created to prevent failure when multiple eligibility completion timestamps are identical.

Reference Tables

20241	FAE when trying to insert a new row through the User Interface in Code Desc Large	The Security > Reference table will no save successfully.

Referrals

10492	Services Report - change color depending on R/T	These Access Report expando changes apply to the following types of Services Reports: Drug Affected Infant, Lack of Care Due to Poverty, Medical Crisis-No Care b/c of Religion, and Relinquished Infant. 1. The hyperlink color now changes based on response time (similar to CPS Reports). 2. The value selected from the Response Time field now

eWiSACWIS Release 2.4 Notes

Referrals

displays under the Access Reports expando.

Report Selection

| 20529 | Recurrence of Maltreatment incorrectly spelled on Dashboard homepage | On the Outcome Measurement Report Dashboard homepage, Recurrence of Maltreatment is now spelled correctly. |

Search

| 10527 | Search Sort for Worker | Assignments to Providers have been modified to display in ascending order sorted by the Provider's last name. |

Search

| 20355 | Add a new first name entry to the thesaurus for searching capabilities | First name updates (Nichole) have been added to the eWiSACWIS Thesaurus. |

Security

| 10537 | ICPC Record Security Access | All regular ICPC Records can be accessed by workers w/out ICPC security as view-only. However, when an ICPC Record is associated with a placement type = Adoption, the date is entered into Date Closed and Reason Closed = "Adoption Finalized" it can only be viewed by workers with ICPC and/or adoption security. |

Spell Check

| 8524 | Spellcheck from a page | Changes were made to the spellcheck page regarding the online display when launched from anywhere in the application. The page that is displayed includes |

eWiSACWIS Release 2.4 Notes

Spell Check

instructions. The following statement is listed in the title of the page: Please click on eWiSACWIS SpellCheck MS Word in the taskbar.

Ticklers

| 10297 | MA Ticklers - need name or person id | Added the child ID to the Medicaid tickler and turned the tickler into a hyperlink which will take users to the Medicaid page. If the child ID is unavailable in existing records the tickler will display as before. |

Trust Accounts

| 10089 | trust account ticklers for TA's with low balance | Added logic to the trust account spend down tickler batch to identify and delete any spend down ticklers which exist for trust accounts where the balance is not actually above $1500. |

Trust Accounts

| 10570 | Trust Account benefit record edit missing | Added an edit to the Trust Account page to require the benefit type "Other - AODA/CIP" before ledger transactions can be record for this benefit. |

Web

| 10143 | WBT Update - Mult. Courses/Notes topic | N/A |

eWiSACWIS Release 2.4 Notes

Worker Assignment

| 7309 | When screening out intakes, the intake assignment is not being closed correctly. | Corrected an issue where assignments were not being closed correctly for screened-out intakes and access reports. |

Worker Assignment

| 10223 | Job Class Reference Table Maintenance | The user will not receive "The current row has been updated by someone else since you retrieved it. Please refresh and try again". validation message when making updates to the Job Class Reference Table Maintenance page. |

Worker Assignment

| 10496 | Worker Assignment sort | Workers' names will be sorted ascending alphabetically (last, first0 on all assignment pages. |
